Extension - University of Arizona

Advanced Water Education Workshop for Valley Educators

\$100 Stipend for
teachers!

July 8-9, 2008
9:00 a.m. – 3:00 p.m. daily

Recertification
credits available!

Arizona State University, Decision Center for a Desert City
Brickyard Orchid House, 21 E. 6th Street, Suite 126-B, Tempe 85281

What do we do with our water once we have it: Sewersheds and Salinity

Come and enhance your knowledge of issues relating to recycling and reusing water. In the arid West finding efficient ways to use and re-use water are important to maintaining our water supply. What are the costs associated with water reclamation? Is it safe? What is a sewershed? Should we be concerned about salt levels in recycled water?

Explore these and other questions as you meet researchers from ASU and U of A, local water providers, and adapt and create materials to enhance your current water education programs.

Specific Issues to be addressed include:

- Water Recycling
- Pharmaceuticals
- Salinity Issues
- Urban Water Infrastructure (sewersheds, retention basins)
- Households: grey water & water harvesting

How can I Participate?

Register at: <http://cals.arizona.edu/arizonawet/> or
Mail or Fax the information below to:

Arizona Project WET
