WEATHER UPDATE

Monsoon flow will return this week, resulting in cooler temperatures, higher humidity & a chance for afternoon & evening thunderstorms each day. A hurricane is presently moving up the west coast of Mexico & is expected to produce even cooler temperatures & an additional surge of humidity late in the week. The remnants of this hurricane could produce a significant precipitation event over parts of AZ later this week. NOTE: The publication "Boll Maturity Dates for Late Season Cotton Flowers" is available at <http://ag.arizona.edu/azmet/cotton.htm>.

This is the final 2009 Advisory. Feedback regarding this program is appreciated & should be sent to pbrown@ag.arizona.edu. Have a safe & profitable harvest season!
