

June's IPM program update is very straight forward this month. It includes only the following information on West Nile Virus:

Summary of WNV activity - Arizona - 2005:

Maricopa County:

- * WNV+ mosquito pools = 4 (Glendale -1, Mesa-1, east Phoenix/Papago Park-1, south Scottsdale-1)
- * WNV+ equine = 1 (Mesa)
- * WNV+ chicken = 1 (Laveen)

Pima County:

- * WNV+ mosquito pool = 1 (NW Tucson)

Pinal County:

- * WNV+ mosquito pools = 3 (Casa Grande area - 2, Queen Creek-1)

Thanks all,

~Dawn & Jennifer
