Wyoming	s	s	s	-	-	-	-	-	Guinevere Jones

s = schools; c = child care centers; v = voluntary; n/a = not applicable

¹If label does not indicate reentry time then 24 hours period must pass before reentry.

²Pesticide applications restricted to Caution label or exempt products

³In schools and childcare facilities, CA law prohibits the use of pesticides with registrations that are conditional, interim for experimental use, cancelled, suspended or with a required phase out.

⁴Only notification applies to turf and ornamental

⁵Commercial applicator/technician is required to have minimal pesticide applicator training, and the business implying them must be licensed. School janitors and custodians are exempt from licensing/training requirements, and are able to apply pesticides on school grounds

⁶Not required unless the applicator is using an RUP or power equipment.

⁷School Board
