

Appendix O-7: Pest Management Publications

Entomology faculty members produce publications on pest management for many audiences including growers, pest management practitioners, and the general public, as well as scientists in industry, government and academia. This appendix lists more than 350 of the Department's pest management publications from 2002 to 2009 in the following categories: Bulletins, Manuals & Peer-Reviewed Extension Publications; Electronic Publications and Other Media; Chapters in Books; Electronic Publications and Other Media; Arthropod Management Tests; Newsletter Articles; UA Commodity Research Reports & Conference Proceedings; Popular Press; Abstracts; and Regulatory Submissions.
