Insect Management in Drip Irrigation

Advantages

• Water / Nutrient management
• Access to field with ground equipment
Insect Management in Drip Irrigation

Advantages

- Water / Nutrient management
- Access to field with ground equipment
- Ability to Chemigate
Chemigation

- Vapam
- Cloropicrin
- Vydate
- MSR
Soil Application

- Pre-plant bed shaping
- At-planting
Chemigation

Drip irrigation is the **optimal** application method for Admire and Platinum
Surface drip
Sub-surface drip
