Review and discussion of P&T Document

FCS not currently aligned with CALS. Needs to be peer-reviewed retrievable scholarship to be considered. Research and Extension are separate for evaluation, Clarity needed: Should Outreach be part of Research or Extension appointment, or Service added to FTE? Should Service/Outreach be a separate category at CALS? Are non-grant-based projects assessed for P&T? How does MIT (as example) assess similar faculty work product? Professor of Practice not well understood at CALS. P&T committee to meet and clarify P&T document.

Michele Walsh added to P&T committee.

APR changes: Year-to-year progress now shown on UAVitae

Next Meeting: Monday, April 11
