  Course description: In today’s omnichannel world, consumers are increasingly expecting seamless, personalized, and value-driven shopping experiences. Having the right mix of products available at the right time continues to be one of the best ways for retailers to earn their customers repeat business. With the application of the up-to-date retail software solution, students will learn and utilize the retail software, which provides businesses with a quicker and more efficient process for creating and executing retail enterprise plans. By translating customer knowledge, software allows students to practice to develop better corporate merchandising, thereby increasing profitability.
