Eastern Arizona College
in cooperation with the University of Arizona Cooperative Extension

is offering

A summer Water and Watersheds course

Students will learn watershed definitions, how climate affects local water resources, water quality factors, growth issues, and conservation programs for communities. Jim Riggs, Southeastern Regional Coordinator of the Master Watershed Steward Program, will instruct the course with the help of many guest lecturers and field trips to areas important to the local watershed.

Who: Individuals with an active interest in the quality and quantity of the local watershed

What: Water and Watersheds (AGR240, section #7066)

Where: South Campus Classroom #9

When: Tuesdays/Thursdays; 8:30 a.m.-12:30 p.m. June 8 - July 13, 2004

Cost: Regular tuition for 3 credits - $74
(Tuition is waived for AZ residents 55 and older)

More Info: Jim Riggs, (520) 384-3594, ext. 105 or jmriggs@ag.arizona.edu
Graham County Cooperative Extension, 428-2611
