If the 2019 growing season is on your mind, we would like you to attend this event! There will be activities and discussions with other growers that detail growing conditions from this year, including important weather events and other issues like pests and disease, responses to such challenges, comparison to previous growing seasons, and assessment of cultivar performance.

Schedule

10:00-10:15  Introduction
workshop overview, participant introductions

10:15-10:45  Activity 1 – Shape the 2019 growing season
note growth stages, weather events, pests, other issues

10:45-11:15  Activity 2 – Detail event/issue impacts and responses
discuss results from Activity 1

11:15-11:30  Economic profile of Arizona Wine Industry
current and upcoming research, survey

11:30-12:15  Lunch!

12:15-12:45  Activity 3 – Compare 2019 to previous growing seasons
place 2019 growing season in an historical context

12:45-13:15  Activity 4 – Assess cultivar performance
compare 2019 to previous growing seasons

13:15-13:30  Wrap up
make sure we covered all topics of interest
Introduction
Participant introductions

Who are you?

Do you have a vineyard?

If so,...
...name(s) and location(s)?
...for how long?

If not,...
...interest in attending?
...a future vineyard owner?
...how soon?

Schedule

10:00-10:15 Introduction
workshop overview, participant introductions

10:15-10:45 Activity 1 – Shape the 2019 growing season
note growth stages, weather events, pests, other issues

10:45-11:15 Activity 2 – Detail event/issue impacts and responses
discuss results from Activity 1

11:15-11:30 Economic profile of Arizona Wine Industry
current and upcoming research, survey

11:30-12:15 Lunch!

12:15-12:45 Activity 3 – Compare 2019 to previous growing seasons
place 2019 growing season in an historical context

12:45-13:15 Activity 4 – Assess cultivar performance
compare 2019 to previous growing seasons

13:15-13:30 Wrap up
make sure we covered all topics of interest
Activity 1
Shape the 2019 growing season.

Main questions:
What was vine phenology like this past growing season?

What and when were the major weather and other events and issues like pests, disease, and irrigation needs of this growing season that impacted – either positively or negatively – your vineyard?

Recall timing of growth stages, weather events, occurrence of pests or disease, and other issues that occurred this year at your vineyard.

Use corresponding sticky notes to indicate such events and issues on the growing season timeline.

Write your name/vineyard and growth stage/event/issue.

- dormancy: winter
- bud break: spring
- leaf fall: autumn
- flowering: spring/summer
- harvest: summer/autumn
- fruit set: spring/summer
- veraison: summer

- Carbohydrate accumulation
- 30-60% pollination rate
- 30-60% pollination rate
- Aroma and flavor development of berries
- Rapid initial growth of berries
- Slow growth, or the lag phase, of berries
- Rapid sugar influx to and expansion of berries

**Activity 2**

*Detail impacts from and responses to 2019 growing season conditions.*

**Main questions:**

*What was done in response to the events and issues, whether they were positive or negative?*

*Were important events and issues particular to one or several growers? If the latter, were they clustered in certain areas?*

Discuss the timeline, either by detailing your notes – how did events or issues affect your vineyard – or by asking questions of notes from another grower.

Place notes on the growing season timeline, connecting events and issues in Activity 2 to corresponding notes in Activity 1.
Schedule

10:00-10:15  Introduction
  workshop overview, participant introductions

10:15-10:45  Activity 1 — Shape the 2019 growing season
  note growth stages, weather events, pests, other issues

10:45-11:15  Activity 2 — Detail event/issue impacts and responses
  discuss results from Activity 1

11:15-11:30  Economic profile of Arizona Wine Industry
  current and upcoming research, survey

11:30-12:15  Lunch!

12:15-12:45  Activity 3 – Compare 2019 to previous growing seasons
  place 2019 growing season in an historical context

12:45-13:15  Activity 4 – Assess cultivar performance
  compare 2019 to previous growing seasons

13:15-13:30  Wrap up
  make sure we covered all topics of interest
**Activity 3**

Compare the 2019 growing season to previous growing seasons.

**Main questions:**

What was similar or different in 2019? Did such events or issues make it easier or harder to produce a good yield and quality crop?

If different, are such events or issues continuing to change between growing seasons? How can they be managed?

Recall timing of growth stages, weather events, occurrence of pests or disease, and other issues that occurred in previous growing seasons at your vineyard.

Place notes on the growing season timeline, connecting events and issues in Activity 3 to corresponding notes in Activities 1 and 2.

**annual count of days above 95°F**

Willcox, AZ

No data May-October 2006, 2019 data through September 30
Schedule

10:00–10:15  Introduction
workshop overview, participant introductions

10:15–10:45  Activity 1 — Shape the 2019 growing season
note growth stages, weather events, pests, other issues

10:45–11:15  Activity 2 — Detail event/issue impacts and responses
discuss results from Activity 1

11:15–11:30  Economic profile of Arizona Wine Industry
current and upcoming research, survey

11:30–12:15  Lunch!

12:15–12:45  Activity 3 — Compare 2019 to previous growing seasons
place 2019 growing season in an historical context

12:45–13:15  Activity 4 — Assess cultivar performance
compare 2019 to previous growing seasons

13:15–13:30  Wrap up
make sure we covered all topics of interest

Activity 4
Assess cultivar performance during the 2019 and previous growing seasons.

Main questions:
For events and issues in 2019, were impacts particular to one or several or all cultivars?

Are such impacts different this growing season from previous ones?

Are such impacts local or widespread?

Recall which cultivars come to mind when thinking about corresponding impacts and note whether impacts were positive or negative.

Place notes on the growing season timeline, connecting events and issues in Activity 4 to corresponding notes in Activities 1, 2, and 3.

13:15-13:30  Wrap up
make sure we covered all topics of interest

Wrap up

Bring up topics that were not addressed and note goals for 2020 growing season.

Main questions:
For the 2019 growing season, which cultivars had an overall good year? An overall bad year? Why?

Based on our work today, what can we say about ideal growing conditions for cultivars in this part of the state?

Bring up any topics that we have not covered so far today.

Look ahead to 2020 growing season and note goals or changes based on experiences during the 2019 and previous growing seasons.
