Dear Colleagues,

I invite you, and encourage you strongly, to attend the University of Arizona strategic plan **Division of Agriculture, Life and Veterinary Sciences, and Cooperative Extension meeting on Thursday, September 6 at 2-3:30 PM in Old Main, Silver and Sage room**. This is an important opportunity for your voice to be heard.

I am told by the UA Strategic Planning Leadership Team that the collective input of nearly 10,000 UA stakeholders over the past eight months has led to the current draft plan that outlines a clear vision for our institution and defines our shared ambitions. They also tell me that, more concretely, the plan refines the strategic themes, goals, and specific initiatives we will strive toward and implement over the next 5-10 years.

At our meeting, a UA Strategic Planning Leadership Team representative will update us on the process and plan details, and offer an important opportunity for you to provide input on UA's organizational health. I hope this meeting will help us all see clearly how our work will contribute, to see what our reasonable share of the total task will and should be, and help us continue to forge critical linkages, collaborations, and relationships with our share of the strategic plan's goals and metrics in mind.

If you are unable to attend this session, please follow the strategic planning and implementation progress at <https://strategicplan.arizona.edu/> or via upcoming campus communications.

Please RSVP for this event and indicate whether you will be participating via webcast or in person: <https://goo.gl/forms/WuF520zSKGcPGB9N2>

Thank you for your participation. I look forward to seeing you on September 6.

Shane
